Profile

I am an efficient and ambitious developer with a passion for coding and a strong desire to learn. With 3 years of experience in challenging, fast-paced, ever-changing environments, I have developed excellent communication and organizational abilities. I am a self-motivated and hardworking team player who wants to contribute to organisational success!

Professional Experience

SOFTWARE ENGINEER

WORTH INTERNET SYSTEMS 

12/2021 – 05/2023

UK-based, remote

- Implemented the Test-Driven Development (TDD) approach to ensure high-quality code.
- Collaborated with cross-functional teams including product owners, business analysts, quality assurance, delivery and tech leads, UI/UX designers, and content writers to translate business requirements into efficient code.
- Utilized full-day pair-programming to promote knowledge sharing and experience gaining among team members in a mono-repo environment, reducing the need for pull requests and fostering trunk-based development.
- Successfully refactored a legacy government system from the Nunjucks framework to React.js, maintaining and enhancing features and shared components.
- Conducted regular stand-up demos for the team and tech lead, as well as bi-weekly progress demos for stakeholders and interested parties, reaching audiences of up to 80+ individuals. This promoted alignment of all parties in the fully remote working environment.

JUNIOR WEB DEVELOPER

NEWSCLIP MEDIA MONITORING 

02/2021 – 11/2021

SA-based, hybrid

- Successfully refactored, expanded and maintained the company's CRM system.
- Skillfully utilized Kibana for daily system monitoring.
- Developed new features using the ASP.NET MVC pattern to enhance functionality.
- Demonstrated expertise in bug fixing and implementing system improvements.
- Collaborated effectively with the Sales department to provide exceptional support.
